

Why Do Infants Love Taggies?

Focused on the “whole child”, Taggies products enhance early childhood emotional well being, growth, and sense of security by providing tactile and visually stimulating features that both soothe and entertain. Children interact with, explore and enjoy a generous assortment of printed and textured tags, creating in them a true sense of good feeling, positive adjustment and overall happiness. Taggies also:

- **Help infants to make the emotional transition from dependence to independence.**
- **Give the child emotional and tangible comfort.**
- **Have a calming effect on the child.**
- **Can help an infant learn self-control.**

Contributing to a lifetime foundation of healthy development, "interactive" Taggies nurture with comfort, activity and fun!
